RAUSHAN KUMAR

BCA Student | Web Development | Data & Technology

Roorkee Institute of Technology, Roorkee • Portfolio & Technical Profile

---

PROFESSIONAL SUMMARY

Passionate and dedicated Bachelor of Computer Applications (BCA) student with a strong foundation in web development, data analysis, and relational databases. Proactive in building practical digital solutions, analyzing datasets, and continuously learning modern technology stacks.

EDUCATION

Bachelor of Computer Applications (BCA)

Roorkee Institute of Technology, Roorkee — Current Academic Progression

Higher Secondary (Class 12) — Bihar

Secondary School Examination (Class 10) — Bihar

TECHNICAL SKILLS

Programming: Java, Python, SQL

Web Development: HTML5, CSS3, Vanilla JavaScript, React (Foundations), Node.js

Data & Analytics: MS Excel (Formulas, Pivot Tables), Data Cleaning, Data Analysis, Power BI, Data Visualization

Databases: MySQL, PostgreSQL, MongoDB concepts

Tools & Utilities: VS Code, Git, GitHub, Microsoft Office

EXPERIENCE & PRACTICAL TRAINING

Data Visualization Training / Internship (2026)

Core Tools: Python, Data Cleaning, Matplotlib, Data Visualization, Data Analysis

- Performed exploratory data analysis (EDA) and data cleansing across practical datasets.
- Developed statistical charts, correlation heatmaps, and trend visualizations using Matplotlib & Pandas.
- Extracted actionable business metrics and structured clean tabular reporting for analysis.

ACADEMIC & INDEPENDENT PROJECTS

Grand Stay Hotel Website (HTML, CSS, JavaScript)

- Built a responsive hotel reservation portal featuring interactive room selection, booking interface, and clean modern styling.

Excel Sales Dashboard (MS Excel, Data Analysis)

- Engineered an analytical sales performance dashboard with automated KPI tracking, category metrics, and trend charts.

School ERP System (HTML, CSS, JavaScript, Database Concepts)

- Designed a modular ERP concept covering student records, faculty management, attendance logging, and fee tracking.

Data Visualization Project (Python, Pandas, Matplotlib)

- Analyzed complex datasets using automated cleaning pipelines and generated visual insight reports.

CERTIFICATIONS & CONTINUOUS LEARNING

- IBM Data Science & Python Foundation • Microsoft Excel for Data Analysis
- Infosys Springboard Python • SQL Database Certification
